

decoCLEAN

CLEANING AND PROTECTION AGENT FOR CONCRETE FLOORS

DESCRIPTION

decoCLEAN is a power full degreaser and cleaning agent which, if regularly used, also protects and strengthens concrete floors. It contains, besides environmental- friendly cleaning agents, a colloidal silica which penetrates the concrete surface and reacts with components, naturally present in hardened concrete, resulting in a decreased porosity and a stronger surface.

RECOMMENDED USES

- For regular cleaning of concrete floors and other surfaces
- Removal of rubber tire marks from concrete.
- If undiluted strong degreaser
- All purpose cleaner

TECHNICAL PROPERTIES

Indicative values

Density at 30°C	1,04 Kg/L
PH	6 to 8
VOC	< 50 mg / liter
APEO	Free of APEO

HOW TO USE

For daily use mix at a ratio of 1-40 to 1-80 with preferably lukewarm water. Cleaning can be done by auto scrubber, swing buffer or just a microfiber and a mop for simple and fast dirt pick up.

For deep cleaning use at a ratio of 1-10 to 1-20 depending on the surface.

Removal of tyre marks or oil spillages may be done using undiluted decoCLEAN

PACKAGING

5 kg and 25 kg containers
